Stocks Advance Sharply, With Lehigh in the Lead LANSTON LEADER

BULLS CONTROL MARKET, CARRYING Bid and Asked on PRICES BRISKLY INTO HIGHER TERRITORY.

NEW YORK, May 11.—Bull enthus-lasm found expression today in a covering still more of the loss sus-sharp rise of prices all along the line. tasm found expression today in a sharp rise of prices all along the line, the advance being held to the close. Better feeling grew out of the belief that the compromise arrived at between the miners and operators in the Anthracite fields will be ratified by the workmen at their meetings to be held soon. This opinion was seized by the bull-pools in the late trading yesterday as favorable to their cause, and Lehigh Valle ywas the stock taken up for the bull demonstration. The price was well advanced in the late trading yesterday, closing at 171%. The stock opened at 172 this morning and was carried quickly up to 175%. From this high point there was a reaction to about 174%, but the stock was very active and strong at the closing.

Reading also felt the influence of the bull operations in Lehigh Valley. Reading closed yesterday at 175%, opened an eighth higher, sold up to 176% and reacted a fraction. The steel report also furnished a basis for raising steel stocks. Steel common, which closed yesterday at 67%, opened today at 65%, advanced to 69% and fell off slightly with other stocks near the close.

Learn at Our Expense

how to get the maximum of comfort and wear out of your car.

Shock Absorbers

give you great comfort, because they prevent jolting and jarring from stones, ruts, car tracks; swaying and rocking from uneven roads, when traveling at good speed;

save expense, because your tires are kept on the ground, do not whirl at high speed in the air to be suddenly slowed upon return to the road, and consequently the "J. M." increases largely your engine efficiency as well as tire

Note that the "J. M." is not a "rotary friction" shock absorber-and is not to be confused with the devices embraced in the recent decision of the Court of Appeals.

Experience in Europe has proven that the "J. M." is the most successful—and most efficient—shock absorber. Tens of thousands have been placed on cars abroad-and the highly satisfactory results led to the sale of many sets to Americans before we had any branches in this country.

Made in three models-applied to any car whose springs are attached by means of shackles. Prices, \$35 to \$50.

We Are Also Distributers of Batavia Tires and will be glad to meet our friends on Sunday Mornings.

OF LOCAL STOCKS

Business Dull and Confined Largely to the Type Machine Shares.

Type machine shares were much in evidence on the Washinton Stock Exchange, and nearly all there was in evidence. Mergenthaler sold at 218% to 219, and Lanston from 93% to 93%. About 100 shares of Lanston were bid in, the takers of the stock being able to get each successive quotation lot offered at a little cheaper figures, as the stock was understood to be for sale at the high-

Small trades in bonds, a few shares of Capital Traction, and a few of Union Trust made up the record.

The local brokers seemed a little rest-less to get out into the warm sunshine in answer to the "call of the wild." and many of them were talking of fish-ing trips, and visits to the country over Saturday night and Sunday. Business was really shunted for the expect-ed delights of much needed recreation.

Arrangements Ready For Turnverein Trip

Arrangements are completed for the excursion that the Columbia Turnverein will take at Chesapeake Beach tomorrow. The trains will leave the District line for the beach at 10 and 11 o'clock in the morning and at 2 and 3 o'clock in the afternoon. Siegfried Scharbau will be in attendance with a section of the Marine Band to furnish music on the train and at the beach. The advance sale of tickets indicates that the party will be large and the arrange-ments provide for handling the crowd comfortably.

The Columbia Turnverein is also making plans for entertaining delegations from the Turnvereins of Baltimore

To Repair Firefighter. The fireboat, Firefighter, will be sent to the Washington navy yard next week for repairs, necessitated by her battle with the ice during the winter. In addition to affording protection to the water front, the Firefighter is used for clearing the channel of ice and the beginning of summer usually finds her in need of repair.
